

**Update**

**Camelthorn Brewing Company** enjoyed a very active month of March. Let me start off with last month's "future events"

**Future Events:**

*Announcement of share holder participation* – the shareholders agreement was signed on March 31<sup>st</sup> to be enacted on April 1<sup>st</sup> .

*Share holders meeting will be announced* ... the meeting was held on March 25<sup>th</sup> in which the agreement was finalized , the brewmaster and the founder updated all shareholders on the progress of the overall project.

*On site sundowner in the month of March for shareholders* ... was held on March 27<sup>th</sup> with a rather lively contribution of all shareholders present. The founder went into more detail of the project also reporting on construction of the brewing equipment abroad.

# Shareholders Sundowne

## Equipment

The open fermenters and lagering tanks are arriving in Walvis Bay on April 16<sup>th</sup> 2009. Below are some pictures taken during manufacturing and packing of the containers. The tanks were vacuum packed in order to limit the problem of condensation during the shipment across the equator.

Our brewhouse is also taking shape in Truchtlaring near Zion – just at the overflow of the picturesque Chiemsee in southern Bavaria. The containers will be loaded towards the end of April to be on the Grey Fox sailing for Walvis Bay on May the 8<sup>th</sup> 2009.

## Construction Site

We have completed our second month of construction and have progressed well. The tiling and steel construction has been completed and we are now working on the offices on the mezzanine floor.

**Entrance door**

It is with great pride that we want to tell the story of our entrance door. The wood we used originated from the roof Structure of an old building in the original Downtown – Windhoek that according to the gentlemen that grew up in that house was constructed around 1915. The wood is Oregon Pine that was

shipped in from the US well ahead of the construction on the house and one can assume that the wood is over 100 years old. A local Carpenter – Joachim von Alvensleben machined the former roof structure into a masterpiece.

**Future Events:**

Arrival of Tanks in Walvis Bay on Thursday April 16<sup>th</sup> 2009

Installation of tanks commences on April 27<sup>th</sup> 2009

Completion of Brewhouse in Truchtlaring, Bavaria on April 24<sup>th</sup> 2009
